

application of electromagnetic theory. mathematical foundations

Filesize: 9.1 MB

Reviews

This pdf is definitely not easy to get started on studying but quite entertaining to read through. I am quite late in start reading this one, but better then never. Once you begin to read the book, it is extremely difficult to leave it before concluding.

(Ms. Fatima Erdman)

APPLICATION OF ELECTROMAGNETIC THEORY. MATHEMATICAL FOUNDATIONS

To save **application of electromagnetic theory. mathematical foundations** PDF, remember to refer to the web link below and save the file or get access to other information which might be have conjunction with APPLICATION OF ELECTROMAGNETIC THEORY. MATHEMATICAL FOUNDATIONS ebook.

paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment.Paperback. Publisher: Southeast University Press. Pub. Date: 2006-09-01. This book is the author based on years of mathematics teaching in the professional preparation of the notes made by the order. and strive to easy to understand. easy to self. to meet the learning needs of all levels of readers. This book is divided into six chapters. including: basic knowledge. special functions. partial differential equations and the classification of fixed the issue. separation of variables. Green s function and conformal mapping method. This book can be used as electronic science and technology institutions of higher learning and other related professional senior undergraduate and postgraduate teaching materials are also available for reference on scientific and technical personnel. Contents: Chapter 1 Basics 1.1 1.2 Orthogonal curvilinear coordinates. vector and dyadic algebra and electromagnetic field theory. the basic agenda of formula 1.3 and 1.4-bit function that binomial coefficient series with the double substitution of variables 1.5 second-order linear ordinary differential equations with variable coefficients and classification of special functions in Chapter 2 Exercises 2.1 2.2 gamma function and Bessel functions 2.3 beta function Legendre functions 2.5 2.4 Mathieu Functions Exercise 3 other orthogonal polynomials Chapter solution of partial differential problems set the agenda and the general concept of partial differential equations 3.1 3.2 second-order linear partial differential equations of second order linear imitation export 3.3 Classification of differential equations second order constant coefficient linear 3.4 Four Satisfaction guaranteed, or money back.
