(Human nature is evil) Stating this, Kant refers to a problem which has been from time immemorial a problem of Moral Philosophy. But what exactly does Kant mean, stating this One interpretation could be that nature brings the evilness from the outside and makes a human evil, that it is the environment which is responsible for any human evilness. Another interpretation could be that men are evil by nature in a way that they are born evil and evilness is a human's feature, why everybody is evil. Probably Kant did not either mean the one nor the other. 12 pp. Englisch.
