## POLITICAL ECONOMY OF FAIRNESS (PAPERBACK)

MIT Press Ltd, United States, 1996. Paperback. Book Condition: New. 226 x 150 mm. Language: English . Brand New Book. Part II reviews fairness theory, including the basic elements of the theories of John Rawls, Robert Nozick, utilitarianism, and superfairness, and the extensive work of experimental economists to develop positive theories of fairness. Part III covers economic theories of regulation and government intervention, introducing the different concepts of taxation, cures for market failures, theories of public choice, and rent seeking. Zajac concludes this part by observing that incentive-compatible regulation appears to economists as the most promising approach to government intervention. The book...
